

ING ROBOTIC AVIATION

REVOLUTIONIZING WIND TURBINE INSPECTIONS

"The ability for us to use drone technology for inspections is a considerable advancement for our company. ING Robotic Aviation provided the right platform and team to get the job done more safely and efficiently than ever before."

Rob Roberti,
VP, Power Generation

"We are continuously evolving and this solution using drones has provided us with a new way to collect better data to make more informed decisions."

Mike Jeffrey,
President
